

So Far

Nivea

Chorus Whether we're on the phone
Listening to each other breath
Or cuddlin at home
It's like u don't feel me
We've built a world of dreams
but now it's falling all apart
and though your here it seems
your so far... your so far... your so far... your so far... Verse 1 (You know what)
Though we stay in the same town, Feels like your far away. (Like your miles away)
Though i saw u last night, it's like i haven't saw u for days. (where you been?)
Everytime that we speak, it's like we don't have nothin to say. (damn how did we end up this way?)
I'm runnin out of words, runnin out of things to do. (i don't understand)
I'm tryna understand just why u actin brand new. (What's goin on?)
Why ya hearts hard, why u won't let me through?
And when i try to come close (why won't u let me resach u... Please leave your message after the tone. (Beep) Call me back.
Chorus Whether we're on the phone listening to each other breath.
Or cuddlin at home it's like u don't feel me.
We bulit a world of dreams but now it'sf alling all apart.
And though your here it seems your soo far... your so far... your so far... your so far... Verse 2
Can you connect me again cuz some how i feel out of range. (out of range)
And tell me what to wear cuz everyday your seasons change
I don't know what it is but i know that something is strange
For the open and honest guy u used to be
Cuz i don't know the one that's standing in front of me. (i don't know u)
Can you bring him back cuz i never wanted him to leave. (no no no nooo...)
Oh somethins different your distant love
(Look it's like this) Chorus
Whether we're on the phone listening to each other breath. (oooh)
Or cuddlin at home it's like u don't feel me.
We bulit a world of dreams but now it'sf alling all apart.
And though your here it seems your soo far... your so far... your so far... your so far... I fell out of range, and tell me what to where cuz everyday your seasons change... your so far...
