

TEST DRIVE

Joji

[Chorus]

She don't wanna tell lies (she don't wanna tell lies)
She don't wanna tell lies (she don't wanna tell lies)
She just wanna feel alive (she just wanna feel alive)
She just wanted more time (she just wanted more time)
I'm looking for a long ride (looking for a long ride)
She just want a test drive (she just want a test drive)
Now you go the west side (now you go the west side)
I'll see you in the next life (see you in the next life)[Verse 1]
What do you want, babe? (what do you want, babe?)
I don't like when you dump me (I don't like when you dump me)
You've been calling the wrong line (you've been calling the wrong line)
I say who do you want, babe? (who do you want, babe?)
I'm working on my game (working on my game)
I'm hoping you do the same (do the same)
You got me afraid again (got me afraid again)
So let me just pray again (so let me just pray again)

[Pre-Chorus]

You're gonna jump through hoops
Know how many lines you're through
No matter when you lose
You'll be there, I'll done for you[Chorus]
She don't wanna tell lies (she don't wanna tell lies)
She don't wanna tell lies (she don't wanna tell lies)
She just wanna feel alive (she just wanna feel alive)
She just wanted more time (she just wanted more time)
I'm looking for a long ride (looking for a long ride)
She just want a test drive (she just want a test drive)
Now you go the west side (now you go the west side)
I'll see you in the next life (see you in the next life)

[Bridge]

Waiting on a sacrificial life
Waiting on the ones who didn't fight
I told you not to waste my fucking time
I told you never sing that song you like[Pre-Chorus]
You're gonna jump through hoops
Know how many lines you're through
No matter when you lose
You'll be there, I'll done for you[Chorus]
She don't wanna tell lies (she don't wanna tell lies)
She don't wanna tell lies (she don't wanna tell lies)
She just wanna feel alive (she just wanna feel alive)

She just wanted more time (she just wanted more time)
I'm looking for a long ride (looking for a long ride)
She just want a test drive (she just want a test drive)
Now you go the west side (now you go the west side)
I'll see you in the next life (see you in the next life)
