

Concerta

Cash Cash

Shake

Are you even here?

(You're begging please and you're ready to go)

Oh, can't you see that I'm ready to go?

Oh, oh I better not show

I'm drawing dead and I'm ready to fold

Waiting for someone to deal

When the cards come falling

Down on the bet, bet it's all in your head

So shake your fist if you're even here

Down on the bet, bet it's all in your head

So shake your fist

If you wanna go

Oh, oh you're losing control

You're begging please and you're ready to go

Oh, oh I better not show

I'm drawing dead and I'm ready to fold

Take, take a risk

You're moving slow

This one's for sale, lady, not for show

Do you wanna fold? Or go home?

You're drawing dead and it's starting to show

When you think of what you better hold

Cause shake, shake it in your skin

I wish for you to find a lot from the world you burn up
on

So be careful what you wish for when the cards come
falling

Down on the bet, bet it's all in your head

So shake your fist if you're even here

Down on the bet, bet it's all in your head

So shake your fist

If you wanna go

Oh, oh you're losing control

You're begging please and you're ready to go

Oh, oh I better not show

I'm drawing dead and I'm ready to fold

1, 2, 3, 4

In your head, I'm the something more
It's not the first time, you've asked before
Do I have to be the shit?
No, no thank you

Down on the bet, bet it's all in your head
So shake your fist if you're even here
Down on the bet, bet it's all in your head
So shake, shake, shake your fist
If you wanna go
Oh, oh you're losing control
You're begging please and you're ready to go
Oh, oh I better not show
I'm drawing dead and I'm ready to fold
