

White Lies (feat. Chloe Angelides)

[Vicetone](#)

Calling my bluff like it's your own
I'm crawling on the floor beneath your throne
Take my hands and wash them clean again And I say I and they say I
Breathe in the truth
Exhale the lies
And they say I and they say I again And they say I am the liar
Oh, but white lies is fire
And they say I
Over my tongue in through my teeth
I have a way with words, you see
They say I'm the liar
And they say I
Tugging not to sleep but you hold still
I'm trying to break free against your will
Right back at the starting line again And I say I and they say I
Breathe in the truth
Exhale the lies
And they say I and they say I again And they say I am the liar
Oh, but white lies is fire
Over my tongue in through my teeth
I have a way with words, you see
They say I'm the liar
And they say I am the liar
Oh, but white lies is fire
Over my tongue ans through my teeth
I have a way with words, you see
They say I'm the liar.(And they say I)
