

# Hush

## Jaheim

I cannot believe this

We just layed it down

What are you gonna tell him

When he comes back in town

Are you gonna let him know

That i'm giving you the business

I tried my best to let it go

But I could not resist it

It's too tempting, i'm slippin

Touching and feeling

Me and him be kicking it

While all the while i'm hitting it

I know that girl it's gonna be hard for me to run with him

Cause we be hoopin and shit

That's my dog, my bestfriend

Said I would never let a chick come between me and my homie

Had a little too much to drink in the night you put it on me

And now I don't if I regret that fact that we be

Up in them hotel suites

Baby this is crazy

*[Hook:]*

Hush Hush

You don't tell nobody

I won't tell nobody

Baby we can keep it on the

Hush Hush

He is just too close to me

This is not supposed to be

But I can't keep you away from me

*[Verse 2:]*

Sometimes I feel guilty

Girl sometimes I don't

I try my best to say no

But girl you turn me on

And now I coming over to your home

When I know that i'm not strong

Blowin up your phone girl

Checking to see if he's home

It's too tempting, i'm slippin

Touching and feeling

Me and him be kicking it

While all the while i'm hitting it

I know that girl it's gonna be hard for me to run with him

Cause we be hoopin and shit

That's my dog, my bestfriend

Said I would never let a chick come between me and my homie

Had a little too much to drink in the night you put it on me

And now I don't know if I regret that fact that we be

Up in them hotel suites

Baby this is crazy

*[Hook:]*

Hush Hush

You don't tell nobody

I won't tell nobody

Baby we can keep it on the

Hush Hush

He is just too close to me

This is not supposed to be

But I can't keep you away from me

Sometimes I wish that this had never ever happened

But on the other hand I'm so glad that it's happening

I just don't know what to do

Girl I'm so caught up with you  
Should've never ever started  
Gotta get on up out your closet

*[Hook:]*

Hush Hush  
You don't tell nobody  
I won't tell nobody  
Baby we can keep it on the  
Hush Hush  
He is just too close to me  
This is not supposed to be  
But I can't keep you away from me
