Yeah, the thing that I was taught that only the strong survives"

You know meaning with, meaning that whether you had to, you know

Scrape, bait, or whatever you had to do, man

The thing was to get it, it really didn't matter what the means was

Or how you had to go and get it

That'd mean you had to, step on 10 people to get a dollar

Then you step on 10 people

And you know that this is what I'd heard constantly, only the strong survive
