

# Come Together

Eric Benét

I know the road of love lately has been a rocky one  
It seems as though we can't see eye to eye  
Girl we fight just a little too much, love just a little bit too late  
A little sexual healing might help us find our way girl

Baby can we come, baby let's come together  
Baby can we come, baby can we come at the same time

If every grinding perfect time I'll hit that magic spark girl  
Take our time with each position, 'till we find that right connection girl  
You'll see that we don't need to jepordize this love  
I'm not just talking physical so, come with me and love will grow

Baby can we come, baby let's come together, not baby hey  
Baby can we come at the same time  
Baby can we come, baby lets come together  
Baby can we come, baby can we come at the, same time

Don't you want to come out baby, everything will be the way it was  
I don't wanna fight no more, so why don'tcha dim the lights  
And close the door, just close the door, just go close the door

Get it, get it, baby get it, just to see you, oh yeah, I want you so bad

Baby can we come, baby let's come together  
Baby can we come, baby can we come at the same time  
Baby can we come, baby let's come together  
Baby can we come, baby can we come at the same time  
Baby can we come, baby lets come together  
Baby can we come, baby can we come at the same time  
How I love you girl, don'tcha know I love you wontcha come with me  
Baby can we come at the same time .....
