

# Hallucinations (feat. R I T U A L)

**R3HAB**

I can't fight this, got my eyes fixed on you  
I've seen something new  
Must be hallucination  
In my mind I realize you're not true  
Must be something we do?  
We're just hallucinations We're just hallucinations  
We're just hallucinations  
We're just hallucinations  
I can't fight this, got my eyes fixed on you  
I've seen something new  
Must be hallucination  
In my mind I realize you're not true  
Must be something we do?  
We're just hallucinations We're just hallucinations  
We're just hallucinations  
We're just hallucinations Swore I saw you coming over here  
Happiness is just controlling fear  
We're just hallucinations  
We're just hallucinations  
We're just hallucinations We're just hallucinations
