

Speechless

Kelly Price

My man, boy, you give me
Fever when you're near me
I can't find my words
I'm speechless, all choked up Your eyes
It got me feelin' dizzy in the head, oh, yeah
And your smile
It's taken my thoughts off again, off again Like a TV on mute, you got me
Speechless
Like a black and white silent movie
I'm speechless
Can't think what to do, I don't know what to say
'Cause I'm feeling some kind of way
My man, boy, you give me
Fever when you're near me
I can't find my words
I'm speechless, all choked up Tongue tied
Like how many would ya? If I should or could ya
Kiss me
And make it all better Like a TV on mute, you got me
Speechless
Like a black and white silent movie
I'm speechless
Can't think what to do, I don't know what to say
'Cause I'm feeling some kind of way My man, boy, you give me
Fever when you're near me
I can't find my words
I'm speechless, all choked up
Hush, quiet
While I'm listening to your breathing
I'm trying
But the view takes over me There's so much I say to you
But I can't seem to make it through
And little words I've been to do
'Cause I'm falling for you My man, boy, you give me
Fever when you're near me
I can't find my words
I'm speechless, all choked up My man, boy, you give me
Fever when you're near me
I can't find my words
I'm speechless, all choked up
