

House Party

The Knocks & Captain Cuts

[Verse 1]

Maybe it's a disco
Maybe it's a club thing
Maybe it's a street thing
I don't know

They said they had a rooftop
We had to climb a ladder
Yeah
Just so they could get to the spot

[Chorus]

Let's take it back
Back to my house
Everybody, bring somebody, back to my house
Let's take it back
Back to my house
Everybody, bring somebody, back to my house

[Verse 2]

Went to see a DJ
He was playing techno
He was playing hip hop
He was playing disco
He was playing all that
And he had a friend
Who couldn't get in
Because, she looked too young

Said that he was on one
Said he had a late one
Said he changed locations
I was like
"Good for you."
Said i'm always on a late one
I been here all night
It's a late one right now

[Chorus]

Let's take it back

Back to my house
Everybody, bring somebody, back to my house
Let's take it back
Back to my house
Everybody, bring somebody, back to my house
My house!

[Post-Chorus]
Hey where are my friends
Hey where are my friends
You gotta pick up the phone
And say, where are my friends
You know where they at
My house!

Hey where are my friends
I said where are my friends
You gotta pick up the phone
Where and say
Where are my friends
You know where they at
My house!

[Verse 3]
Maybe it's a disco
Maybe it's a street thing
Maybe it's a club thing
I don't know
My house!
Maybe it's a house party
Wait, wait. Yo
We should have a house party

[Chorus]
Let's take it back
Back to my house
Everybody, bring somebody, back to my house
Let's take it back
Back to my house
Everybody, bring somebody, back to my house
My house!

[Post-Chorus]
Hey where are my friends
Hey where are my friends
You gotta pick up the phone
And say, where are my friends
You know where they at

My house!

Hey where are my friends
I said where are my friends
You gotta pick up the phone
Where and say
Where are my friends
You know where they at
My house!

[Outro]
My house!
My house!
