

# Free Fall

## Born of Osiris

I fucking lost.I fucking lost myself again  
(In the heat of the)  
In the heat of the moment  
It's a lost cause, I know itI try to be open  
It's a lost cause, I know it  
Still this feast will unfold  
You dine and you knowHow you corrupt my mind  
But you can never destroy my hope  
I lost myself again stuck in a free fall  
You play the game you always win  
In the heat of the moment  
I lost myself again  
(Your spirit is killing me)  
Stuck in free fall(Pictures and memories)  
You play the game you always win  
I know things will remain the same  
I know I didn't fix anythingI fucking lost  
I fucking lost myself again  
(In the heat of the)In the heat of the moment  
It's a lost cause, I know it  
I try to be open  
It's a lost cause, I know it  
So I aim to pretend this won't happen again  
You can disrupt my mindBut you can never destroy my hope  
I lost myself again stuck in a free fall  
You play the game you always win  
In the heat of the moment  
I lost myself again  
(Your spirit is killing me)  
Stuck in free fall  
(Pictures and memories)  
You play the game you always winYou can laugh  
You can smile  
Feel your heart is open  
Let your spirit free  
In this light I think I'm starting to see  
I know that you're leaving me  
And I wish I could feel apathy  
Every time I close my eyes  
All I see is your anatomy  
I know that you're leaving me  
And I wish I could feel apathy

Every time I close my eyes  
(Pictures and memories)  
A taste of what it used to be  
(Pictures and memories)
