

# All the Way Down

## Little Big Town

Rock me like a lullaby, roll me like a wheel  
I'm going down, down, all the way down  
Love me like a superstar, play me like a steel  
I'm going down, down, all the way down  
Down, down, falling all the way down  
Stand where the good love lies  
Be my man, I'll be your alibi  
Wonderland, wanna give it a try  
Let it ride

Rock me like a lullaby, roll me like a wheel  
I'm going down, down, all the way down  
Love me like a superstar, play me like a steel  
I'm going down, down, all the way down  
Down, down, falling all the way down  
Here, where it all feels right  
Crystal clear as a southern sky  
Oh my dear, you set my love on fire  
Every time

Rock me like a lullaby, roll me like a wheel  
I'm going down, down, all the way down  
Love me like a superstar, play me like a steel  
I'm going down, down, all the way down  
Down, down, falling all the way down  
You gotta show me now  
Show me now  
You gotta show me now  
Stand where the good love lies  
Be my man, I'll be your alibi  
Wonderland, wanna give it a try  
Let it ride, let it ride

Rock me like a lullaby, roll me like a wheel  
I'm going down, down, all the way down  
Love me like a superstar, play me like a steel  
I'm going down, down, all the way down  
Down, down, falling all the way down  
Down, down, all the way down  
Down, down, all the way down  
Down, down, all the way down  
Down, down, falling all the way down
