

Close This Case

Adam Tell

[Verse 1]

The situation's turning red
We're deconstructing in the bed
But keep connected in our heads
Our inhibitions disappear
Communication's crystal clear
We're diving in this new frontier

[Pre-Chorus]

The puzzle contained in these sheets
Is ours for the night to complete

[Chorus]

I'm waking up to the sunrise freckles, linen circles
We're lying on the same page
Forget about the morning decay, coffee cliches
No pressure to close this case

[Verse 2]

Pillows coated in perfume
The night is scattered round the room
We're coming back down from the moon, yeah
I'm learning you from the inside
I'm memorizing your design
I'm finding answers in your eyes

[Pre-Chorus]

The moment we fall into sleep
My mind rewinds, you're on repeat

[Chorus]

I'm waking up to the sunrise freckles, linen circles
We're lying on the same page
Forget about the morning decay, coffee cliches
No pressure to close this case

[Verse 3]

There's no mistaking where we stand
And no projections for an end
We're moving faster than we planned

You're feeling warmer when you sleep
It's getting colder when you leave
Your kiss has never felt so sweet

[Pre-Chorus]

These changes aren't anything more
Than precisely what this love calls for

[Chorus]

Sunrise freckles, linen circles
We're lying on the same page
Forget about the morning decay, coffee cliches
No pressure to close this case
