## What Do You Want

## **Maejor**

What are you complaining for, you don't appreciate me, no You say you do what's hard to tell I'll give you everything you need, maybe you should be a queen Or I should be with someone else So make it clear, first this, everything is fine Next second, you wanna fight Baby just make up your mind Tell me your problem Baby be honest What do you want from me? Learning you slowly Need you to show me What do you want from me? From me What do you - want from me? (What do you want from me?) Always going back and forth, steady tryna ask for more Tell me where you crossed the line Baby just say what it is, so I know what I need to fix So I can make you feel alright So make it clear, first this, everything is fine Next second, you wanna fight Baby just make up your mind Tell me your problem Baby be honest What do you want from me? Learning you slowly Need you to show me What do you want from me? From me What do you - want from me? (What do you want from me?) Oh ey, say what you need, girl, I mean what you say? Oh ey, I surrender, I don't wanna play no games Tell me your problem Baby be honest What do you want from me? Learning you slowly Need you to show me What do you want from me?
