

# My Lover, My Friend

AJ Mitchell

[Verse 1]

Love, it comes and goes  
In the moment it can all just float away  
But I ain't going nowhere  
I'll be with you even when we're old and grey

[Pre-Chorus]

The moment that my heart stops burnin'  
Is when the clocks stop turnin'

[Chorus]

Oooh, I'll be there till the end, I'll be there till the end  
Oooh, I'll be there till the end, I'll be there till the end  
My lover, my friend

[Verse 2]

Life, it waits for no one  
If you're not careful it can all just pass you by  
I've got to learn, learn how to slow down  
'Cause damn, you make it good to be alive

[Pre-Chorus]

The moment that my heart stops burnin'  
Is when the world stops turnin'

[Chorus]

Oooh, I'll be there till the end, I'll be there till the end  
Oooh, I'll be there till the end, I'll be there till the end  
My lover, my friend  
I'll be there till the end, yeah  
Oooh, I'll be there till the end, I'll be there till the end  
My lover, my friend
