

# Sweet Soul Sister

## The Cult

All the hip young things  
Trying to make a scene  
Living out forbidden dreams  
Star spangled banner  
Flutters in the sky  
Time hustles those  
Who wait to die Come on little honey  
Come on now, please  
Come on little honey and dance with me Sweet soul sister  
Keep on pushing till the dawn, well  
Sweet soul sister  
Forever dancing on and on  
Ooh, she's a Dior girl  
Twisting round the world  
Midnight crush boogie scene  
Firm fixed expression  
Sensual, tender, smooth  
Sexual panther, beautifully cool Come on little honey  
Come on now, please  
Come on little honey and dance with me Sweet soul sister  
Keep on pushing till the dawn, well, well, well, well  
Sweet soul sister  
Forever dancing on and on, yeah Hustle and strut through Paris at night  
Hustle and strut  
Hustle and strut through Paris at night  
Hustle and strut  
Say na na na  
Say na na na, yeah  
City of sin  
Come and let me in  
City of sin  
Come and let me in, ow Sweet soul sister  
Keep on pushing till the dawn  
Sweet soul sister  
Forever dancing on and on Sweet soul sister  
Keep on pushing till the dawn  
Sweet soul sister  
Forever dancing on and on, yeah
