

# Loud

## Silk City, GoldLink & Designer

Yeah, we gotta bring it back for Ye  
We have to pray, besides what the pastor say  
I have to say, since Steez passed away  
Most these rappers don't even deserve a track from me  
Got me on these old women, Uncle Phil with it  
I ain't ever trill with it, always keep it real with it  
I ain't ever, look, I ain't ever back from a fight  
I ain't ever had to answer, tell 'em back from a nigga  
Illy-illy, she gon' celebrate her wins  
Pop it, drop it, cabin pressure with it to a Benz  
If it's up to me, I'll put a whole lot of somethin'  
Tell her open up the oven and she poppin' up with twins, yeah  
Never gave a fuck, niggas wanna give me love  
Pop a molly 'cause they don't think that I sweat enough  
On some hella shit, need to get some better wins  
Need some better bitches, ooh, she better bring her better friends  
DJ play it loud in the speakers  
Got it droppin', two speakers  
DJ play it loud in the speakers  
You get dropped, I get dropped by two eaters  
DJ play it loud in the speakers  
Got it droppin', two speakers  
DJ play it loud in the speakers  
You get dropped, I get dropped by two eaters Yeah, I go anywhere the kitty go  
My aura gold, is he the greatest? That's rhetorical  
I love the bitch so much I gotta do the oracle  
These boys gang weird they prolly use a glory hole, the story goes  
He that nigga everybody know  
But they never tell on 'cause they know he know  
I ain't trippin' though  
Actin' like I hit the medical  
I'm off the same shit Travis got his antidote  
Uh, it's night time and the night young  
That molly gettin' louder models spinning right once  
Yeah, feelin' giddy I might pipe  
When the shawty suckin' crazy so I call her mouth Dyson  
Yeah, you ain't get it, you should run it back  
Way you back it, back it, it look like you my runnin' back  
Yeah, if there's a throne it's mine now  
I ain't even really rappin', but I might now  
DJ play it loud in the speakers  
Got it droppin', two speakers

DJ play it loud in the speakers  
You get dropped, I get dropped by two eaters  
DJ play it loud in the speakers  
Got it droppin', two speakers  
DJ play it loud in the speakers  
You get dropped, I get dropped by two eaters Loud in the speak-  
Lou-loud in the speaker  
Loud in the speak-  
Lou-loud in the speaker  
Loud in the speak-  
Lou-loud in the speaker
