

# Never Leave (Extended Mix)

DVBBS

We live it up and toast to all the memories  
We fill our cups and smoke like it's the seventies  
We sing the words of wisdom, baby let it be  
We found where we belong and we will never leave here We live it up and toast to all the  
memories  
We fill our cups and smoke like it's the seventies  
We sing the words of wisdom, baby let it be  
We found where we belong and we will never leave here Will never leave here  
We will never leave here  
We live it up and toast to all the memories  
We fill our cups and smoke like it's the seventies  
We sing the words of wisdom, baby let it be  
We found where we belong and we will never leave here  
Will never leave here  
We will never leave here
