

Games

Alison Wonderland

Who told you this is gonna make me change?
I'll never cave and give you all my game.
Exactly how I thought that this would play,
But I keep running to you anyway.Odds-on and then you say;
You didn't even know about it.
I knew the games you played;
There's a way to work around it.
Cause we need more, but I
Seem to fall back into it.
Can't tell you what I think;
You didn't even know about it.They always tell me to stop acting tough.
And I can't help but know it's not enough.
But you got me hung up like everytime.
I'm sick of hearing from you;
Not this time.
Odds-on and then you say;
You didn't even know about it.
I knew the games you played;
There's a way to work around it.
Cause we need more, but I
Seem to fall back into it.
Can't tell you what I think;
You didn't even know about it.Odds-on and then you say;
You didn't even know about it.
I knew the games you played;
There's a way to work around it.
Cause we need more, but I
Seem to fall back into it.
Can't tell you what I think;
You didn't even know about it.
Odds-on and then you say;
You didn't even know about it.
I knew the games you played;
There's a way to work around it.You didn't even know about it.
You didn't even...
You didn't even...
