

# Monsta

## BENEE

[Verse 1]

I'm tryna fall asleep  
Something doesn't feel right  
A chill crawls up my skin  
A tinglin' down my?limbs  
A?shadow in the?night  
My God, it gave me such?a fright  
I see him standing right outside  
His face is red, his eyes are white

[Pre-Chorus]

What is it that he wants from me?  
Maybe he just feels lonely  
What is it that he has in mind?  
Why has he come here at this time?

[Chorus]

A monster takes me away  
From my safe space  
Into the night

The monster takes me away  
From my safe space  
Into the night

[Verse 2]

Wake up in a magic cave  
Here's me trying to be brave  
But then instead of eatin' me  
He offers me a blueberry

[Pre-Chorus]

What is it that he wants from me?  
Maybe he just feels lonely  
What is it that he has in mind?  
Why has he come here at this time?

[Chorus]

The monster takes me away  
From my safe space  
Into the night  
The monster takes me away  
From my safe space  
Into the night

[Bridge]

The monster walks me to a pot

It seems like time is all I got

He puts my head inside, I'm not ready to die

Instead of burning out alive, I see my room, flames rising high

He wasn't tryna hurt me, was only tryna save me

[Chorus]

The monster takes me away

From my safe space

Into the night

The monster takes me away

From my safe space

Into the night
