

Wallflowers

The Chain Gang of 1974

Simple feelings
Show us that there is meaning
Pure hearts shining like gold
Our ears ringing with words that we've been singing
Don't cry
This time we're alive Quiet
Dreaming
Grab all your things, we're leaving
We won't ever belong
Let's never go home now
We are with this
Together in the stillness
We won't ever belong
Let's never go home now
Twilight's fading
Hurry, the moon is waiting
Forever wallflowers
You and I
Across the night
Visions that we will hold tight
Float on
Breathe in, my love
Let it be, let it be
We are never broken
When our eyes are open Quiet
Dreaming
Grab all your things, we're leaving
We won't ever belong
Let's never go home now
We are with this
Together in the stillness
We won't ever belong
Let's never go home now
You don't have to stand alone tonight
You don't have to stand alone tonight Quiet
Dreaming
Grab all your things, we're leaving
We won't ever belong
Let's never go home now
We are with this
Together in the stillness
We won't ever belong

Let's never go home now We won't ever belong
