

# Love You Anyway

Luke Combs

If your kiss, turned me to stone  
I'd be a statue standing tall in ancient Rome  
And if your touch, shattered me like glass  
I'd be in pieces tryin' to make the breakin' last  
If it took one look to turn my days to night  
At least I'd have the stars, the sparkle in your eyes  
There's just some things that leave a man no choice  
Like a compass needle needin' it's true north  
Even if I knew, the day we met, you'd be the reason this heart breaks  
Oh, I'd love you anyway  
I know just tryin' to write a song  
I run the risk that I could get your perfect wrong  
And well I guess, what I'm tryna' say  
Is there ain't words been made could shoulder so much weight  
And if you turned your back on me and walked away  
Not a thing about the way I feel would change  
There's just some things that leave a man no choice  
Like a compass needle needin' it's true north  
Even if I knew, the day we met, you'd be the reason this heart breaks  
Oh, I'd love you anyway  
There's just some things that leave a man no choice  
Like a compass needle needin' it's true north  
Even if I knew, the day we met you'd be the reason this heart breaks  
Oh, I'd love you anyway  
Even if I knew, the day we met you'd be the reason this heart breaks  
Oh, I'd love you, anyway
