

# Oasis

## Roberta Flack

in the morning, when i see the sun  
i think about you  
february, cold and cloudy days, here without you  
ooohh-ooohh  
i know it wont be long  
till your here with me  
waitin with anticipation  
lately  
seems i hear your voice in the distance  
comin closer, dark and rainy skies disappearingooohh-ooohh  
let me hold you close  
i know what u need  
give you all my love and affection  
oohh  
now i'm layin next to you  
we share our hearts beneath the desert moon  
now my love you'll never lose  
now my oasis here in you  
baby  
the world is far away, when we're together  
in my oasis, kiss my tears away, and we remember (now remember)ooohhh-ooohh  
let me hold you close (hold you close)  
i know what you need (what you need)  
give you all my love and affection  
oohh  
now i'm layin next to you  
we share our hearts beneath desert moons  
and my love you'll never lose  
now my oasis here in you(say you'll never leave) say you'll never leave  
(oasis, oasis) oh no  
all that i need, is to keep you here with me  
(need, need, need, need, ooohhh)  
ooohhhhhh  
instrumental solo(when we're together)  
world is far away  
(no stormy weather)  
no more cloudy days, no no  
(found my oasis)  
in your lovin arms  
(i'll leave you never)  
never leave youooohh-ooohh  
let me hold you close (hold you close)

i know what you need (what you need)  
give you all my love and affection  
oohh  
when i'm layin next to you  
we share out hearts beneath desert moons  
and my love you'll never lose  
now my oasis here in you now i'm layin next to you  
we share out hearts beneath desert moons  
now my love you'll never lose  
now my oasis here in you ooh oohh, ooh oohh, oooohhhh  
ooh oohh ooh oohh, oooohhhh another instrumental solo and mostly ad libs till the end
