

# Lifer

## Florida Georgia Line

[Intro]

I'ma lifer

[Verse 1]

I can hear that rain fallin' on this tin roof  
Girl after all we've been through  
Feels like the calm after the storm  
So what you say we take this sunday  
Let me love you till it's monday  
We'll go have a fun day and baby we'll get back to us  
We'll get back to us  
We've been trippin' over the same shit  
I'm over the who's to blame shit  
We throwin' up a white flag  
I'm dancin' with who I came with  
I'm your man and you my lady

[Chorus]

Baby I'm a lifer I ain't goin' nowhere  
Told you since day one I had to wife ya  
Show the world that I just wanna love ya  
Girl I don't wanna fight ya  
Yeah you're the only one for me  
God knows that I'm a product of George Strait  
And dammit I love singing to you  
I done check yes and gave my mama's ring to you  
Ain't nobody was sighted  
My arms can't get any wider  
Baby I'ma, baby I'ma, baby I'ma lifer  
I'ma lifer, I'ma lifer, I'ma lifer

[Verse 2]

Whatever we go through girl we're family  
There's nothin' we can't do can we  
Tether through the weather, got us better than before  
We just gotta learn how to stay here  
Build on the love we made here  
Make more time for prayer and the man upstairs  
Cause I believe we can move any mountain when we're good  
I believe I ain't me without you walkin' out in that white dress

Life without you is lifeless  
And I'm your man and you my lady

[Chorus]

Baby I'm a lifer I ain't goin' nowhere  
Told you since day one I had to wife ya  
Show the world that I just wanna love ya  
Girl I don't wanna fight ya  
Yeah you're the only one for me  
God knows that I'm a product of George Strait  
And dammit I love singing to you  
I done check yes and gave my mama's ring to you  
Ain't nobody was sighted  
My arms can't get any wider  
Baby I'ma, baby I'ma, baby I'ma lifer

[Verse 3]

The twists and turns  
Sometimes the love can hurt ya  
Sometimes it burns  
The wait ain't always perfect  
We'll just keep diggin'  
Dig our feet into the dirt and we'll get back to us  
We'll get back to us  
We've been trippin' over the same shit  
I'm over the who's to blame shit  
We throwin' up a white flag  
I'm dancin' with who I came with  
Can't wait to see our kids  
Hope they look just like you

[Chorus]

Baby I'm a lifer I ain't goin' nowhere  
Told you since day one I had to wife ya  
Show the world that I just wanna love ya  
Girl I don't wanna fight ya  
Yeah you're the only one for me  
God knows that I'm a product of George Strait  
And dammit I love singing to you  
I done check yes and gave my mama's ring to you  
Ain't nobody was sighted  
My arms can't get any wider  
Baby I'ma, baby I'ma, baby I'ma lifer  
I'ma lifer, I'ma lifer, I'ma lifer, I'ma lifer

[Outro]

There's somethin' about them raindrops, them raindrops  
Just let 'em fall

Till the pain stops, till the pain stops, let 'em fall  
Just let 'em fall  
There's somethin' about them raindrops, them raindrops  
Just let 'em fall  
Till the pain stops, till the pain stops, let 'em fall  
Just let 'em fall
