

Shade

Maren Morris

[Verse 1]

I was mixed up in the shadows casting over me
Blending in the background of someone else's dream
Then I caught your light, then I caught your glow
Didn't dim my shine, but you changed my tone
Now I'm illuminated and you're all I see

[Chorus]

Baby, baby, you're my color, custom made
Think I finally discovered you're my perfect shade

[Verse 2]

I stand out like neon on the darkest night
Everything looks clearer looking in your eyes
It could be the fall, it could be the spring
Baby, you look good with everything
I've tried other designs, and boy, you fit just right

[Chorus]

Baby, baby, you're my color, custom made
Think I finally discovered you're my perfect shade

[Bridge]

Shades of green, shades of gold
I don't need another rainbow
Shades of me, shades of you
You're the prism that I see through

[Chorus]

Baby, baby, you're my color, custom made
Think I finally discovered you're my perfect shade

[Outro]

You're my perfect shade, yeah
Hey yeah
Hey, hey, hey yeah

Whoa oh oh oh, whoa, mmm
