

# Stars

## Ricky Dillon

[Verse 1: Ricky]

The night is young, the DJ's done  
We ain't ready to go  
Our energy's like dynamite and we're about to explode

[Pre-Chorus]

And I'm gon' take you to a place  
Where we ain't gonna come down  
Just let it take you away  
Never wanna touch the ground, ground, ground

[Chorus]

Just look up to the stars  
You're wondering where we are  
We ain't going away  
Just look up to the stars  
You're wondering where we are  
We ain't going away  
We ain't going away.....

[Instrumental]

[Verse 2]

This is our moment we're gonna own it  
Let it pass us by  
No time to waste so celebrate  
We ready to fly

[Pre-Chorus]

And I'm gon' take you to a place  
Where we ain't gonna come down  
Just let it take you away  
Never wanna touch the ground, ground, ground

[Chorus]

Just look up to the stars  
You're wondering where we are  
We ain't going away  
Just look up to the stars

You're wondering where we are  
We ain't going away  
We ain't going away.....

[Instrumental]
