

Bridges

Broods

[Verse 1]

Gave you a minute
When you needed an hour
Just to push it aside
Instead of leaving it behind you

If any word that I said
Could have made you forget
I'd have given you them all
But it was all in your head

[Pre-Chorus]

And we're burning all the bridges now
Watching it go up in flames
No way to build it up again

And we're burning all the bridges now
'Cause it was sink or swim and I went
Down, down, down

[Chorus]

And we're burning all the bridges
Burning all the bridges now
And we're burning all the bridges
Burning all the bridges now

[Verse 2]

If I didn't hide it
Would you still say you needed me?
Guess I walked right into it
Guess I made it too easy

If any word that you said
Could have made me forget
Would I get up off the floor
'Cause this is all in my head

[Pre-Chorus]

And we're burning all the bridges now
Watching it go up in flames

No way to build it up again

[Chorus]

And we're burning all the bridges
Burning all the bridges now
And we're burning all the bridges
Burning all the bridges now

[Bridge]

Can we forget about it?
Can we forget
Can we forget about it?
Can we forget

[Chorus]

And we're burning all the bridges
Burning all the bridges now
And we're burning all the bridges
Burning all the bridges now
