

Midnight (feat. Liam Payne)

Alesso

Always thought I was losin' the race
Lookin' for love in all the wrong places
Really don't know how we made it here
Never thought I was worth what you give
Never felt quite alive, now I'm livin'
Yeah, you kill my doubts, they disappeared
When I feel like nothing's gonna hold me down
Hold me down, you do
Used to be scared of fallin'
'Til you came around, came around
Now I just wanna stay here, fall into midnight
Want nobody else now, only you, feel right
Time enjoyed wasted's not wasted time
So stay 'til the morning, stay for a while
I just wanna lay here and fall into midnight
And fall right into you
And fall right into you
Like a rock, I was set in my ways
Always thought I was too far from grace, yeah
I was numb before, but now I feel
Any problems, we'll figure it out
Any love lost, we'll bring back around
Any broken heart, we'll make it heal
When I feel like nothing's gonna hold me down
Hold me down, you do
Used to be scared of fallin'
'Til you came around, came around
Now I just wanna stay here and fall into midnight
Want nobody else now, only you, feel right
Time enjoyed wasted's not wasted time
So stay 'til the morning, stay for a while
I just wanna lay here and fall into midnight
And fall right into you
And fall right into you
And fall right into you
Yeah, when I feel like nothing's gonna hold me down
Hold me down, you do
Used to be scared of fallin'
'Til you came around, came around
Now I just wanna stay here and fall into midnight
Want nobody else now, only you, feel right
Time enjoyed wasted's not wasted time
So stay 'til the morning, stay for a while
I just wanna lay here and fall into midnight
And fall right into you
