

South Side

Thomas Rhett

[Intro]

Please commence shaking your south side
Thomas on that beat
Yeah
It feels good

[Verse 1]

Ain't no place it ain't goin' on
It's goin' around like a vagabond
It gets in your bones like you caught the flu
And now there ain't no cure
You just gotta move when you feel the groove

[Chorus]

Now people on the left, shake your south side
People on the right, shake your south side
Every single girl, shake your south side
All around the world, shake your south side

[Verse 2]

Like Memphis, Tennessee
Got in bed with CDB
And had a baby
Oh, and when the baby cried
It made this sound
Ain't no lie, it was funkdaified

[Chorus]

People on the left, shake your south side
People on the right, shake your south side
Every single girl, shake your south side
All around the world (All around the world), shake your south side

[Post-Chorus]

Oh, yeah
Feels good, don't it?
Let me break it down

[Bridge]

Shake it like salt, shake it like pepper

Shake it like champagne, number one record
Shake it 'til you just can't shake it no more
Shake that thing all the way to the floor, uh

[Chorus]

People on the left (Shake your south side)
People on the right (Shake your south side)
People on the left, shake your south side
People on the right, shake your south side
Every single girl (Every single girl), shake your south side
All around the world (All around the world), shake your south side
People on the left, shake your south side (Oh, just shake your south side, baby)
People on the right, shake your south side (Just shake your south side, baby)
People on the left, shake your south side (I do it just like that, then do it again)
People on the right, shake your south side (I do it just like that)
Shake your south side

[Outro]

Is that a good one?
That was a good one
