

New Thang

Trevor Jackson

That new thang
She see me hoppin out of that new thang
She love the way I do thangs
She see me, she see me, see! She see my new car, new clothes, new house, new rose
Gold watch!
She heard my new song, see me in those new j's,
Can't forget about my
Gold watch. I swear I thought that I had everything
But then she pointed out something I was missing
And then she kindly introduced to name
I said hello, nice to meet you, we went missing.
She see me hoppin out of that new thang
She said she love the way that i do thangs
She said that every king needs a queen
And she said, she wanna be, she wanna be,
She wanna she wanna be my new thang.
My new thang, my new
She said, she wanna be, she wanna be,
She wanna she wanna be my new thang.
My new thang, my new thang
She wanna be my new thang. Boy I show you how to do this
If you don't believe me just watch!
Made her my new girl, she aint' going nowhere
If you don't believe me, just watch! I swear I thought that I had everything
But then she pointed out something I was missing
And then she kindly introduced to name
I said hello, nice to meet you, we went missing.
She see me hoppin out of that new thang
She said she love the way i do thangs
She said that every king needs a queen
And she said, she wanna be, she wanna be,
She wanna she wanna be my new thang.
My new thang, my new
She said, she wanna be, she wanna be,
She wanna she wanna be my new thang.
My new thang, my new thang
She wanna be my new thang. Do I blame her? No I don't.
Will she leave me? No she won't
She won't ever do me wrong,
'cause she know what she got here
Swag is so incredible
And I'm a smooth criminal

So I wish she would leave. She see me hoppin out of that new thang
She said she love the way that i do thangs
She said that every king needs a queen
And she said, she wanna be, she wanna be,
She wanna she wanna be my new thang.
My new thang, my new
She said, she wanna be, she wanna be,
She wanna she wanna be my new thang.
My new thang, my new thang
She wanna be my new thang. She wanna be, she wanna be, she wanna
But she's gotta she's gotta be
She's gonna be my new thang.
