

Got It

Goapele

You caught me
Lookin' at you
Forgive me
But if it's treasures
You're seeking
I'm the one who
Could reach them
It's not the kind of thing
You wanna rush or hesitate
It could go
Far
If you step to me
Just come at me
With honesty and oyu might be mine
Oh
Hold on, got it good babby
Believe me it's all good baby baby
Hold on, got it good baby
Believe me it's all good baby babyOooh
So soft and
Effortlessly
I'm fallin'
So suddenly
You touch me
_____ (?) me
I just might let in
Just think we could be anywhere
If I could choose
It'd be right here
And I don't let go easily
But something's taken over me
You're saying that our chemistry
Is poetry
In motion
And whispering
So preciously
I second that emotionGood
