

Don't Know Yet

Silversun Pickups

[Verse 1]

Ooh, I need a fresh start now, reboot the machine
Ooh, I'm a ghost up in the clouds now, so frightening
Ooh, face down in a fountain, soaking wet
Ooh, my body's growing into my silhouette

[Pre-Chorus]

I can see now you wanted to play
Hurry back, I think they're closing the gate
But I fear it's just a moment too late

[Chorus]

Don't know what you're gunning for
Should I hit the deck, fall through the floor?
Don't know what you're thinking of
Do I chip away or keep defenses up?
Don't make a sound if it gets too loud
Will you hear me come around?

[Verse 2]

Ooh, fade into the sounds that we can't avoid
Ooh, I'm addicted to the soundtrack, I need the noise

[Pre-Chorus]

Are you screaming from the other side?
Believe me, I know what it's like
To lay awake all through the night

[Chorus]

Don't know what you're gunning for
Should I hit the deck, fall through the floor?
Don't know what you're thinking of
Do I chip away, or keep defenses up?
Don't make a sound if it gets too loud
Will you hear me come around?
Don't know what you're gunning for
Should I hit the deck, fall through the floor?
Don't know what you're thinking of
Do I chip away, or keep defenses up?
Don't make a sound if it gets too loud

Will you hear me come around?

[Chorus]

Don't know what you're gunning for
Should I hit the deck, fall through the floor?

(What you're gunning for)

Don't know what you're thinking of
Do I chip away, or keep defenses up?

(I'll keep defenses up)

Don't make a sound if it gets too loud

Will you hear me come around?

(Gets around, oh, it gets around)

Don't know what you're gunning for
Should I hit the deck, fall through the floor?

(Fall through the floor)

Don't know what you're thinking of
Do I chip away, or keep defenses up?

(I'll keep defenses up)

Don't make a sound if it gets too loud

Will you hear me come around?

(Hear me come around, you hear me come around)

[Outro]

I can see now you wanted to play
Hurry back, I think they're closing the gate
But I fear it's just a moment too late
