

# Time In

## TWENTY88

Comin' back live, this Keith Sweat  
And as we windin' down from a long day  
And hopefully to an even longer night With the one you love and care about the most  
Or the one you wanna get to know the most

Detroit 2, baby

Yeah

What's the timing? I just wanna put the time in  
I just wanna put the time in  
I just wanna put the time in  
I just wanna put the-, put the-  
I just wanna put the time in  
I just wanna put the time in  
I know it's been a while, but I feel like perfect timin'  
I just wanna put the time, yeah  
I just wanna put the time in  
I just wanna put th? time in  
I just wanna grind, yeah  
I just wanna spill ev?rything that's on your mind, and  
I just wanna put the time in I just wanna put the time in  
I just wanna put the time in  
I just wanna put the time in  
I just wanna put the tip in (put the tip in)  
Give your ass a tip, then  
Give you a tip like knowledge? (Knowledge)  
Tip like money? (Money, money) Or both?  
Yeah

You been on the way for an hour  
But you only stayed 25 away  
I know we been friends for a while  
Sometimes that gets in the way  
Well, my grandparents was friends too  
And they love was beautiful  
But losin' a lover and a friend  
Is like goin' through two funerals, uh That's my worst habit  
Playin' out things that's yet to happen  
Sometimes my imagination moves faster than reality happens  
It just so happens I already know your favorite shit  
And I already got your favorite liq'  
And I got the playlist, hits of the greatest  
I feel your energy miles away  
'Cause quality people deserve quality time And I just wanna put the time in  
I just wanna put the time in

I just wanna put the time in  
I just wanna put the time in (yeah)  
I just wanna put the time in  
I just wanna put the time in  
See what's on your mind, and  
Maybe I'll put the tip in (yeah) Maybe I'll put the tip in  
Maybe I'll give you a tip then  
Yeah, tip like knowledge and like money  
I can't fuck with money-hungry hoes out here that's livin' scummy I just wanna put the time in,  
yeah  
I just wanna put the time in  
Maybe you could put your tongue in it  
Maybe we could have some fun with it, haha  
I just wanna put the time in  
I wanna put the time in  
I wanna put the time in, yeah  
See what's on your mind and
