Get It Right

[Backhouse Mike](#)

[Verse 1]
If I could get it right
Enough to venture all and find a brighter day
Think I might just fly away
To where my life could maybe take me (Take me, take me)

[Chorus]
Like the sky that was meant to shine
Like the words that were meant to rhyme
And I believe it will be my time
(If I) I get it right
(If I) I get it right
(If I) I get it right
(If I could only) I get it right
[Verse 2]
You're feeling blunt
But I can see you're pressed for time, but mine has just begun
Think I'll grab my sword and run
To where my life could maybe take me (Take me, take me)

[Chorus]
Like the sky that was meant to shine
And like the words that were meant to rhyme
And I believe it will be my time
(If I) I get it right
(If I) I get it right
(If I) I get it right
(If I could only) I get it right
(If I could only) I get it right
