

# Are We In Trouble Now

**Randy Travis**

Wasn't just the music, wasn't just the wine  
Some other kind of magic sending shivers up my spine  
And I was falling and I fell for you and how  
Darling are we in trouble now Well they say we're grown up  
We've been searching all this time  
And I wouldn't own up  
Never would admit to flying blind  
But in the darkness found each other anyhow  
Darling are we in trouble now When we talk it over  
Our love was crying from a distant shore  
Then we found each other  
And all that we've been searching for  
Now don't deny it yeah I guess by how we know  
I'm through with trying can't bring myself to let you go  
And all these feelings said we never would now  
Darling are we in trouble now  
Darling are we in trouble now
