

# Say Goodbye

## Cheat Codes

[Verse]

All I can see are headlights  
We're driving in late December  
I made you mine at midnight  
Tell me, do you remember?

[Chorus]

And it's hard to pretend that I'm alright  
Hard to forgive, I can't empathize  
And it's hard to relax, I don't know why  
But you make it hard to say goodbye  
But you make it hard to say goodbye  
But you make it hard to say goodbye  
Say goodbye

[Verse]

All I can see are headlights  
We're driving in late December  
I made you mine at midnight  
Tell me, do you remember?

[Chorus]

And it's hard to pretend that I'm alright  
Hard to forgive, I can't empathize  
And it's hard to relax, I don't know why  
But you make it hard to say goodbye  
But you make it hard to say goodbye  
But you make it hard to say goodbye  
Say goodbye  
But you make it hard to say goodbye
