

# Out of Sight (feat. Paul McCartney & Youth)

## The Bloody Beetroots

It's out of sight, you say you love me  
That this is true  
The best thing to do is to lie down beside me  
I said I love you  
Nothing too much, just out of sight  
Nothing too much, just out of sight  
Nothing too much, just out of sight  
I said I love, alright  
I said I love you  
I thought you knew  
The last thing to do was to try to betray me  
You want to lie  
I'll never forget it  
That's just out ought of sight  
Nothing too much, just out of sight  
Nothing too much, just out of sight
