

# Down Low

## Doja Cat

[Intro]

Can I get to know you babe?

[Chorus]

Can I get to know you babe?

Show you things, you think you seein' dreams

But just don't tell your team

Keep it on the down low, keep-keep it on the down low

Low, low, low, low

Keep it on the down low

Low, low, low, low

Keep it on the down low

Down low, keep it on the down low

Low, low, low, low-low-low-low-low

[Verse 1]

No rush though baby, I'll be your shawty body

I'll let you do the naughty, make me go, "La-di-dadi"

Don't tell them secrets, I'll give 'em reasons to keep 'em bae

But this ain't creeping, nah ah, this is just freakin'

Papa, see you every weekend, ah ah

And I'm speakin', you and me can make sure ain't nobody peekin'

So can I get to know?

[Chorus]

Can I get to know you babe?

Show you things, you think you seein' dreams

But just don't tell your team

Keep it on the down low, keep-keep it on the down low

Low, low, low, low

Keep it on the down low

Low, low, low, low

Keep it on the down low

Down low, keep it on the down low

Low, low, low, low-low-low-low-low

[Verse 2]

So touch me baby, let's get this party started

I'll show you how I ride it, let you know I'm 'bout it, 'bout it

You got me fiendin', a perfect reason for pleasin' babe

I hear you breathin' in my ear, you got me screamin' babe  
Baby boy I'm tryin' to know ya  
See the shotgun that you hide in ya holster  
We can get down on the ground or the sofa  
Do you got time for an hour of Doja?  
So many things that I'm dyin' to show ya  
No pics when it's time for exposure  
Just ridin' over and over and over and over

[Chorus]

Can I get to know you babe?  
Show you things, you think you seein' dreams  
But just don't tell your team  
Keep it on the down low, keep-keep it on the down low  
Low, low, low, low  
Keep it on the down low  
Low, low, low, low  
Keep it on the down low  
Down low, keep it on the down low  
Low, low, low, low-low-low-low-low

[Bridge]

Just don't say a thing, we'll be safe on the low  
Let them wonder, babe, mystery keeps us close  
Just don't say a thing, we'll be safe on the low  
Let them wonder, babe, mystery keeps us close

[Chorus]

Can I get to know you babe?  
Show you things, you think you seein' dreams  
But just don't tell your team  
Keep it on the down low, keep-keep it on the down low  
Low, low, low, low  
Keep it on the down low  
Low, low, low, low  
Keep it on the down low  
Down low, keep it on the down low  
Low, low, low, low-low-low-low-low
