Fallen Angels

[Ra](#)

My eyes don't see the obvious
There's way too far to go
Forget about the rest of me
There's nothing left to know
I see fallen angels
When I try to go to sleep
And they're always watchingI see fallen angels
As I'm walking in the street
Silently preparing
What they'll do to me
You see, I'm kinda paranoid
My luck, it seems to have run out
So I will point a finger now
Beyond a shadow of a doubt
I see fallen angels
When I try to go to sleep
And they're always watchingI see fallen angels
As I'm walking in the street
Silently preparing
What they'll do to meI see fallen angels
When I try to go to sleep
And they're always watching
I see fallen angels
As I'm walking in the street
Silently preparing
I see fallen angels
I see fallen angels
When I try to go to sleep
I see fallen angels
As I'm walking in the street
Silently preparing
What they'll do to me
