# Ain't Worth the Whiskey

## Cole Swindell

I dont care that you done me wrong
Cause Ive already moved on
I dont care what his name is
Girl it is what it is
I wont waste a dime or the bartenders time
Tryin to catch a buzz, over the thought of usBut Ill drink to a country song
to another long work week gone
And Ill raise my glass to a long lost buddy I aint seen
I might stay for one more round
Or I might close this place down
But dont think for a second Im out to drown your memory
Baby you aint worth the whiskey
It dont matter what your friends say
They never liked me anyway
So if they see me drunk in this bar
It aint over a broken heartCause Im drinkin to a country song
to another long work week gone
And Im raisin my glass to a long lost buddy I aint seen
I might stay for one more round
Or I might close this place down
But dont think for a second Im out to drown your memory
Baby you aint worth the whiskey
Cheers to a good country song
To another long work week gone
Yeah Im raisin my glass to those saving our ass overseas
I might stay for one more round, hell I might close this place down
But dont think for a second Im out to drown your memory
No dont think for one second Im out to drown your memory
Girl you aint worth the whiskey
Noo-hoo
Baby you aint worth the whiskey
