

Play Dead

Shiner

Operated by a fictional computer,
and navigating down the stream of possibilities,
I could never...maybe.
Isolated for my crimes and misdemeanors,
graduating to the piece of shit that I became.
Accidental? Maybe.

I'll call in and play sick,
the worst thing has happened.
I'll call off all that keeps me down.

Oxidized and holy, sanitized in chlorine.
Gravitating to the curse of disability.
Accidental? Maybe.

I'll call in and play sick,
the worst thing has happened.
I'll call off all that keeps me down.

Remember your name, together we pray,
the whole world is gay, the whole world is gay.

Operated by a fictional computer.
Navigating down the stream of possibilities.
I could never...maybe.

Overrated by the under-educated.
Graduating to the piece of shit that I became.
Accidental?! Maybe.

I'll call in and play sick,
the worst thing has happened.
I'll call off all that keeps me down.

Remember your name, together we pray,
the whole world is gay, the whole world is gay.
