

Angel At My Door

NEEDTOBREATHE

[Verse 1]

What do I got to do to my love to make you understand me?
Where do I find the piece of your heart to keep you satisfied?
What do I got to do to my love to you make you even notice?
Where do I find the words in my mouth to cut through the air tonight?

[Pre-Chorus]

'Cause everyday I know that I am learning
And age, it ain't the only thing in life
But if memory's all you have, then I can't find you
Beneath those eyes

[Chorus]

So we open up the door
Let the music take you further than before
We open up the door
'Cause maybe there's an angel standing on the porch

[Verse 2]

How do I face the man that I am when my heart's still in hiding?
Staring me down, the days of my life that I've gotta justify
Maybe I need the cracks in my skin' emotions are hard to carry
Maybe I need the strength in your eyes to cut through the morning time

[Pre-Chorus]

'Cause everyday I know that I am learning
And age, it ain't the only thing in life
But if memory's all you have, then I can't find you
Beneath those eyes

[Chorus]

So we open up the door
Let the music take us further than before
We open up the door
Maybe there's an angel standing on the porch

[Post-Chorus]

Yeah, maybe there's an angel

[Bridge]

Oh, maybe there's an angel at my door
Oh, maybe there's an angel at my door
Standing up high, taking this light
Oh, I'm gonna see the shining
Yeah maybe there's an angel at my door
Oh, maybe there's an angel at my door

[Chorus]

We open up the door
Let the music take us further than before
We gotta open up the door
'Cause maybe there's an angel standing on the porch

[Outro]

We gotta chase like we're behind
We gotta fall before we find
We gotta live like we were poor
We gotta show what hope is for
