

Take Over Control (Radio Edit) [feat. Eva Simons]

Afrojack

Take Over Control
Afrojack I want you to take over control
Take take take take over control
Plug it in and turn me on Let's go take a ride in your car
I will take the passenger seat
Baby, we don't have to go far
Unless you wanna show
Me a lovely place out of town
Where you feel most at ease
Well you are the one that I like
Always will be I think it's time to let you know
Know the way I feel when you take hold
And You set me free, my body's yours
It feels the best when you're involved I want you to take over control
Plug it in and turn me on Music## I want you to take over control
Plug it in and turn me on Baby, baby, can't you see?
That I'm giving all of me
So, it's up to you now
We could let time pass away
I'll make an excuse to play
But, it's up to you now Just wanna fulfill your needs
While you're taking over me
So, what do you want now?
Take a picture, make a show
Cause nobody has to know
All the ways that we get down
I want you to take over control
Take over control
Take take take take over control
Oh oh oh, I want you to take over control
Plug it in and turn me on Oh, oh whoa oh
Oh, oh whoa ooh oh
Plug it in and turn me on
Oh, oh whoa oh
Oh, oh whoa ooh oh
Plug it in and turn me on I want you to take over control
Take over control
Take take take take over control
Oh oh oh, I want you to take over control
Plug it in and turn me on Oh, oh whoa oh

Oh, oh whoa ooh oh
Plug it in and turn me on I want you to take over control
Plug it in and turn me on
