

Come With Me (feat. Ronald Isley)

Keith Sweat

Yeah, what I want you to do tonight is turn your stereo up real loud
Now for all the fellas out there gettin' their groove on
And for all the ladies out there gettin' on with the groove
This one goes out to you, yeah Would you mind if I kiss your lips a thousand times?
Would you mind?
And baby would you mind if I could just sit here, take my time?
Would you mind? Oh baby Come with me
To a place where no love has gone before
Come with me
To a place where no love has gone before
Would you mind if I run my fingers through your hair, baby?
Would it show you how much I care?
And would you mind if I made you scream my name out loud, babe?
The thought of it just drives me wild Come with me
To a place where no love has gone before
Come with me
To a place where no love has gone before Come and go with me
Girl then you'll see baby
I wanna love you now
Make your body spin around and around and around and around
Come with me
To a place where no love has gone before
Come with me
To a place where no love has gone before
