

Only

Jelly Roll

What if the love that I'm missing is finally taking control?

What if the drugs in my system have finally taken a toll?

What if I bleed? The whole world will see my heart

Lord, what I need? Have mercy on me, please God

I don't wanna wake up

I'm living in a dream right now

Only place I ain't a fuck up

Only place for me to be right now

I only feel right when I'm doing wrong

I only feel right when I'm doing wrong

I only feel right when I'm doing wrong

I only feel right, said I only feel right

What if the darkness inside of me has finally taken my soul?

What if the angels in heaven were sent to take me home?

Would they fight through the demons that I have in my life?

Lord, I'm believing, eventually see the light

I don't wanna wake up

I'm living in a dream right now

Only place I ain't a fuck up

Only place for me to be right now

I only feel right when I'm doing wrong

I only feel right when I'm doing wrong

I only feel right when I'm doing wrong

I only feel right, said I only feel right

What if the moon disappears and the sun doesn't light up the sky?

What if the freedom we're seeking is only inside of our mind?

What if I love? What if I give my all?

Lord up above, will she catch me when I fall?

I don't wanna wake up

I'm living in a dream right now

Only place I ain't a fuck up

Only place for me to be right now

I only feel right when I'm doing wrong

I only feel right when I'm doing wrong

I only feel right when I'm doing wrong

I only feel right, said I only feel right
