

# Leave Like That (feat. Jenn Champion)

[SYML](#)

[Verse 1: Jenn Champion] You never got the chance to know me  
Packed it up and crossed the state  
You left behind more than memories  
Now when I sleep I'm only dreaming of your face  
[Verse 2: Jenn Champion] You never got the chance to hold me  
I learned to love your selfish way  
I still believe in you, and in this burning room  
I'll suffer through the pain  
[Chorus: Jenn Champion] Oh no, got me low, how you gonna leave like that?  
Oh no, got me low, gone and I want you back  
Oh no, down so low, feeling like I'm under attack  
Oh no, where'd you go? You're gone and I want you  
[Verse 3: Jenn Champion] We never talked about forever  
I never wanted you to change  
Call me up and I'll be running  
Lose my breath, calling out your name  
Lose my breath  
[Chorus: Jenn Champion SYML] Oh no, got me low, how you gonna leave like that?  
Oh no, got me low, gone and I want you back  
Oh no, down so low, feeling like I'm under attack  
Oh no, where'd you go, you're gone and I want you  
[Outro: Jenn Champion SYML] You're gone and I want you back  
You're gone and I want you back and I want you  
Gone and I want you, how you gonna leave like that?  
Feeling like I'm under attack, gone and I want you back  
How you gonna leave like that, gone, gone, and I want you
