

# Déjà Vu Affair

Sofi Tukker

[Verse 1]

We're in a junction, we're in a champagne room  
But no other people are breathing this air with you  
It's a secret, honey, a chocolate perfume  
I like to close my eyes and feel the way it moves

[Chorus 1]

We don't even dare  
To breathe such loose thin air  
They all run away  
Of this déjà vu affair

[Verse 2]

This hatred wind chime, I chemical appeal  
Hallucinations of what the now reveals  
It's realistic, and a sculptural idea  
I like to say no words and let the human feel

[Chorus 2]

We don't even dare  
What happens out there  
We just rest away  
Of this déjà vu affair
