

Life Change

Clipse

[Chorus]

Last night what I seen made my life change
Made my life change,
Made my life change,
Made my life change,
Made my life change,
Made my life change,
Yeyet yet yet I move on,
Yeh yes I move on,
Yeh yes I move on,
Yeh yes I move on, (hear me out now)
Where I'm from see us guy don't believe in luck
I can't beleive what they doin to my nigga buck
Facin time, 25 to life
25 the same thing as life
Only chips is to fight or to forfeit
Baby momma tryin to make the mortgage
Daughters playin, tryna put cha back up in the portrait
Uh it's like the tear never stop
When u was home it's like the smiles never drop
Collect calls with all the hopes of the best
And hang up with a knot in my chest
See see your cell is my hell
My hell is our pain
The hurt gon never stop until we see you home again
And that's all we wanna see
Maybe in a dream but not a memory
Forget that hold your head man head man
Last night what I seen made my life change
[Chorus] I was retchid, pitful, poor, blind, and naked
So much so I had left my family forsaken
A troubled soul whose heart was often achin
So much dough but my spirit ever so vacant
Foul and fragrant I was taken off course
The road ahead should have ended me in divorce
But now I see clearly with the family of 4
Never did I deserve a 2 seater porshe
Heart filled with remorse, my life was such a mess
Now I'm back on board due to the lords GPS
One eighty degree turn whoever couldve guessed
Malice believe in his heart and out my mouth I confess
YES more than blessed I was choosen

I been on the troop, my wisdom is that of old men
Wasted so much time stuntin for folk
When really the whole time I was just stuntin my growth
A message to the youth, what I'm offerin is hope
Now somethings gotta change I'm at the end of my rope
CAUSE[Chorus]You know I gotta go and get it
There aint no other choice in it
Aint tryin to be a part of the percentage
Hear me out nowLord knows I done seen the worlds cold shoulder
Seein my future thru the crystal ball of bakin soda
Oasis of hoes, my champagne supernova
The high life and high times, I watched em turn sober
Seen it all come crashin crashin
The FEDs was at the door, and no they not askin
Sayin they found drugs but they aint talkin asprin
Diesel design ones and I aint talkin fast shitMoney hoes and clothes is malices past tense
All said forgiven, all you do is askin
Even when laughin I can't explain the hurt
Knowin I can't change the world in a verse
Even to my self I'm feelin my screws loose
But how can I deny what I know to be true
When I dint have a clue, shoulda viewed it as a gift
Now I see what they mean ignorance is bliss[Chorus]You know I gotta go and get it
There aint no other choice in it
Aint tryin to be a part of the percentage
Hear me out now
