

Say Hi

Codeko & Austin Mahone

[Verse 1]

Out of cigarettes to smoke
Heavy heart, away from home
I just need a little bit of you
Making money, goin' broke
This one life is all I know
I can't say I'll give it up for you

[Pre-Chorus]

And since I can't see you tonight
Tell me that you're doin' fine
Pictures aren't enough across state lines
And since our hands can't intertwine
And I can't feel your skin on mine
I just need to hear your voice tonight

[Chorus]

I love it when you call, I love it when you call
Just to say hi, say hi
Feeling low when you're away, holding on to what you say
Just to stay high, stay high
I hope it's not too late, I hope you're still awake
I just want to say goodnight
I love it when you call, I love it when you call
Just to say hi, say hi (say hi)
Say hi, say hi (say hi)
I love it when you call, I love it when you call
Just to say hi, say hi
When you say hi, ooh
When you say hi

[Verse 2]

Out of patience, out of time
Out here waiting for a sign
I just need a little bit of you
Out of luck and low on gas
Counting seconds til I'm back
Say the world, I'll give it up for you

[Pre-Chorus]

And since I can't see you tonight
Tell me that you're doin' fine
Pictures aren't enough across state lines
And since our hands can't intertwine
And I can't feel your skin on mine
I just need to hear your voice tonight

[Chorus]

I love it when you call, I love it when you call
Just to say hi, say hi
Feeling low when you're away, holding on to what you say
Just to stay high, stay high
I hope it's not too late, I hope you're still awake
I just want to say goodnight
I love it when you call, I love it when you call
Just to say hi, say hi (say hi)
Say hi, say hi (say hi)
Say hi
I love it when you call, I love it when you call
Just to say hi, say hi (say hi)
