

# All Over Again

Luke Combs

Feels so familiar  
You walking in here  
Wearing just what you know makes me weak  
And I'm already ordering you a drink  
Baby, and then we're  
Gonna get out of here  
Just like the last time and the time before  
We're at your house and through the door

And we're falling all over again  
Like a flashback to way back when  
Back when we were us  
Couldn't get enough  
But we both know how this ends  
You can leave it up to me  
To say things that I don't mean  
And I'll leave it up to you  
To turn, "I love you"  
Into, "Boy, where you been?"  
And just like that  
Just as fast as we began  
We're all over again

I'll think you're out of my system  
At least till I miss ya  
I'll start going through withdrawals  
That's about the time you'll call

And we'll be falling all over again  
Like a flashback to way back when  
Back when we were us  
Couldn't get enough  
But we both know how this ends  
You can leave it up to me  
To say things that I don't mean  
And I'll leave it up to you  
To turn, "I love you"  
Into, "Boy, where you been?"  
And just like that  
Just as fast as we began  
We're all over again

Well, I know where we'll wind up  
'Cause trouble loves to find us  
And I guess goodbye's just too tough  
'Cause last time was the last time, but

We're falling all over again  
Like a flashback to way back when  
Back when we were us  
Couldn't get enough  
But we both know how this ends  
You can leave it up to me  
To say things that I don't mean  
And I'll leave it up to you  
To turn, "I love you"  
Into, "Boy, where you been?"  
And just like that  
Just as fast as we began  
We're all over again

Oh, we're all over again  
Well, I know where we'll wind up  
And I guess goodbye's just too tough
